

Clear Communication. Seamless Collaboration.

Dell Pro Premium Conferencing Soundbar

SB725

 Certified for
Microsoft Teams

 Certified

Clear Communication. Seamless Collaboration.

Achieve clear communication with an AI-based noise cancellation soundbar that filters distractions on both ends, ensuring seamless collaboration

Crystal-Clear Audio

Experience flawless communication with a dual directional AI-based noise cancelling microphone and advanced echo cancellation, ensuring distraction-free, distortion-free audio for seamless virtual meetings and calls.

High Performance Drivers

Engineered for balanced audio that enhances speech clarity and sound fidelity, delivering an exceptional listening experience.

Dell Monitor Integration

Effortlessly integrate with over 50 Dell commercial displays using a magnetic, plug-and-play design, while ensuring security with Kensington lock compatibility for a streamlined and secure workspace setup.

Dell Display and Peripheral Manager plus UC Certifications

Enhance virtual meetings with UC-certified audio for Teams and Zoom, customizable equalizer settings, and collaboration presets via Dell Display and Peripheral Manager (DDPM), ensuring clear calls, optimized soundbar performance, and tailored sound for effective communication and multimedia experiences.

Noise Out, Voice In

Experience flawless conversations with AI-based noise cancellation for crystal clear two-way audio

Distraction-Free Conversations

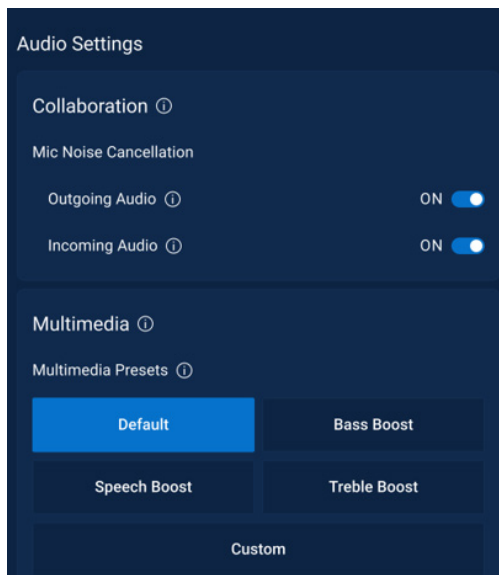

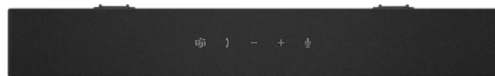

With both uplink and downlink AI noise cancellation, this soundbar ensures crystal clear communication by removing background noise on both ends, allowing everyone—near or far—to enjoy natural, uninterrupted conversations.

Dell Display and Peripheral Manager

Activate AI noise cancellation for clear incoming and outgoing audio, free from background noise. Choose from multimedia presets like Bass Boost or Speech Boost, and keep your soundbar updated with the latest firmware for optimal performance.

More Manageable

Save time and boost IT efficiency with the Dell Device Management Console to manage your Dell peripheral fleet at scale, from a single cloud-based console. Discover expanded Command Line Interface features from Dell Display and Peripheral Manager.
